PROFILE

I am a Postdoctoral Researcher at Aalborg University's Techno-Anthropology Lab researching algorithmic markets and AI governance. My work examines how algorithmic systems are designed, adopted, and governed in insurance markets, in professional work, and across the public sector. I am particularly interested in why some algorithmic systems take root in organizations while others fail to gain traction, even when they are technically feasible and economically valuable. Alongside my academic work, I am a Partner at Phibon I/S, a Nordic boutique consultancy, where I advise organizations on AI governance and responsible AI use. I also serve as Consultative Expert on Data Use in Insurance at the European Insurance and Occupational Pensions Authority (EIOPA).

ACADEMIC POSITIONS

- | | |
|------------------------|---|
| Sept. 2025 – present | Postdoctoral Researcher
<i>Techno-Anthropology Lab, Aalborg University</i> <ul style="list-style-type: none">• Researching the development of public-sector AI infrastructures in Denmark and the comparative orchestration of national AI initiatives across the Nordic countries.• Part of the Algorithms, Data & Democracy (ADD) consortium. |
| Mar. 2022 – Sept. 2025 | PhD Fellow
<i>Department of Organization, Copenhagen Business School</i> <ul style="list-style-type: none">• Authored four research papers, including peer-reviewed publications in the <i>Socio-Economic Review</i>, the <i>Journal of European Public Policy</i>, and the <i>Journal of Professions and Organization</i>.• Three-month scholarly exchange at SCANCOR, Stanford University. |

9. Gamerdinger, A. (2022). Insurance, Environments, and the Experiments of Financial Sociology. Panel participation, Intersections of Finance and Society Conference, City University of London. September.

TEACHING

Executive education

- 2026 — Data Sprint module, Master of Data-driven Organization, Aalborg University.

Master's level

- 2025 — Advanced Mixed Methods, Copenhagen Business School.

Undergraduate level, Copenhagen Business School

- 2025 — Comparative Political Economy.
- 2023 — Corporate Strategy in a Network Perspective.
- 2023 — Comparative Political Economy.
- 2022 — Statistics.
- 2022 — Corporate Strategy in a Network Perspective.
- 2022 — Comparative Political Economy.

Visiting lecturer

- 2022 — Happiness and Sustainability in the Nordics, Northeastern University.

LANGUAGES AND SKILLS

Languages	English (fluent), German (fluent), Danish (fluent), French (intermediate)
Methods	Ethnographic fieldwork, interviews, document analysis; quantitative methods including statistical modelling, network analysis, and multiple correspondence analysis
Software	R (expert), Stata, Tableau, NVivo, LaTeX, Git
